SCHOLARSHIPS

1. Finnish scholarships

In Finland the Centre for International Mobility (CIMO) operates, on the basis of bilateral cultural agreements, the Finnish governments' scholarship programmes aimed at promoting international university level cooperation on education and research.

The quota to be reserved for Romanian postgraduate students and researchers (no older than 35 years) amounts to 20-23 months annually, which may be divided into several scholarships of varying length, however, no less than four months each. Out of the quota, two to four short visits to Finnish cultural and educational institutions are reserved for Romanian specialists. The length of a visit should not exceed one week.

CIMO will annually inform the Romanian authorities about the quota, financial terms, application period etc.

The Romanian authorities may propose candidates for these scholarships. A list of prospective candidates with applications should reach CIMO by the 1st of March each year. The final approval of the recipients of scholarships is made by CIMO.

Prior to application, the candidates should have established a contact with the Finnish host institution, since no scholarship can be granted without invitation/admission by the receiving institute. When granting a scholarship, special emphasis is laid on active participation and interaction with research and/or teaching at the host department.

Scholarships

The scholarship period is usually 3-9 months and the grant is intended to cover living expenses in Finland for a single person, the amount of which is determined annually. In 2002 the monthly scholarship is 725 euros. Upon arrival of the scholarship holder a lump sum of 85 euros or 170 euros is paid for study/research period of one term or, respectively, a whole academic year.

Short visits

A visitor scholarship (up to 7 days) consists of free accommodation in a guest room or hotel and a daily allowance, the amount of which is determined annually (28 euros in 2002).

Summer scholarships

Romanian students will receive from CIMO a scholarship and free accommodation. The opinion of a native language teacher should be considered when candidates are nominated.

\[\text{Signature}\]
Travel

Travel expenses to and from Finland are not covered by CIMO. The scholarship recipient will pay his/her local transportation.

CIMO may also grant travel allowances for Finns who receive a scholarship from the authorities of Romania on a basis of bilateral exchange.

Insurance

Students intending to study in a Finnish university should pay the student union fee of the university in order to benefit from the student health care services. All recipients of scholarships are recommended to make arrangements for insurance coverage during their stay in Finland.

2. Romanian scholarships

Scholarships

In Romania the Ministry of Education and Research will administrate the scholarships awarded on the basis of the present Programme.

The Romanian Party will grant 20-23 months annually for studies at university and post-university level. The length of a scholarship will vary between 3-9 months.

The Ministry of Education and Research will grant to the Finnish scholarship holders a monthly allowance in concordance with its valid internal regulations, free accommodation in university campuses, internal transportation and medical assistance in the same conditions as for Romanian students.

The applications of the prospective candidates, containing study and identity documents, study project and the acceptance of the Romanian receiving university will be sent to the Romanian Ministry of Education and Research till the 1st of April each year.

Summer scholarships

The Romanian Party will grant the scholarship holders of the Romanian language, literature and civilization courses free studies, accommodation and meal.

Travel expenses to and from destination in Romania will be covered by the participants at the exchanges in the field of education stated in the present Programme.
